### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claimed invention is deemed allowable because the state of the prior art did not teach addition of IL-18 to oncolytic herpes simplex virus. Applicant, in the response filed on 09/23/2009, argues at the time of the invention IL-12 was known to prevent a HSV infection. Thus Applicant asserts at the time of invention those skill in the art would have expected IL-12 would reduce the effectiveness of oncolytic virus therapy. This assertion as a general proposition is rather misplaced. In fact the IL-12 was known to those skilled in the art to enhance anti-tumor activity of oncolytic herpes virus, as evidence see Bennett et al, Annals of Surgery, 2001, Vol. 233, No. 6, pages 819-826. Bennett et al taught replication-component HSV combined with IL-12 showed better efficacy in treating cancer tumors. The Office is of opinion, notwithstanding such teaching, claims are free of art because the combinations of IL-18, recombinant HSV or combinations of IL-18, recombinant HSV and IL-12 may have been obvious to try but not obvious to succeed. See The Proctor & Gamble Company v. Teva Pharmaceuticals USA, Inc., (Fed. Circuit, May 2009)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 17, 19-26, 28-30 are allowed.
